DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-38 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 6,330,893 (O'Connell).

The O'Connell reference discloses a fuel filler tube assembly comprising a funnel portion 8 having a larger inlet with a rolled over sealing surface and a smaller outlet (see Figure 4), a funnel insert 12, a vent tube 25, a fuel tank 26, wherein the funnel portion is tapered as claimed to induce swirl (see column 3, line 63- column 4, line 6). Regarding the claimed method of making, the claimed method is disclosed in column 5, lines 5-45.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent No. 6,588,459 discloses a similar fuel filler tube assembly and method of making.
